Minutes of meeting
Date and time: 27/6/18 2:00pm to 2:30pm
Present: contractor and client
Absent: shree, sai, cally, bharat, michael grunner, brandy, mischelle, friend

First they discuss to go through the product there is a pom formula and work on a
transformation process
He wants the other person to comeup with 10 questions and can have unit test about it
Rewite the project
Build the software use new pam technology that will use database connection get that from
shree and sai
For each table also gonna add priimary ie for the tableit will take methods for each able based
on ie of the primary id then one example was included
Basically he is gonna rewrite code transform data and put it in database
Transform into our
